## ProSEAM™ Overview

Integrated Packaging Solutions ProSEAM is a semi-automatic can seamer that seals a single can at a time. This process is ideal for the craft beer industry and small beverage filler. Sizes range from 32oz cans (“Crowlers”) all the way to sleek diameters. This solution is also perfectly suited for brewpubs looking to seam their draft beer so customers can enjoy finely brewed product at their home. ProSEAM seals a can rapidly but in a controlled manner reducing any potential spills.

## Benefits of ProSEAM™:

- Easy operation for all types of users
- Cost makes ProSEAM ideal for even the smallest operations
- Balanced design reduces possible beer or beverage spills
- Compact size reduces demand on counter space
