TooIPOLISH takes the manual polishing of punches and dies and provides a safe yet robust solution. **TooIPOLISH** uses the **SafeCHUCK** system to ensure that job site accidents are greatly reduced. The **SafeCHUCK** mounting system holds tooling in a manner that creates a snag-free environment. Tools are securely and safely held for the polishing process. **TooIPOLISH** combines a heavy duty lathe with a solid maple work surface with plenty of room to get the job done.

*Lathe head with die holder

TooIPOLISH Benefits

- SafeCHUCK punch and die mounting system provides a safe and snag-free set up for manual tool polishing
- Quick tool changeover system means less downtime to polish all of your tooling
- Heavy duty lathe motor yields consistent repeatability
- Rotating and locking lathe head

TooIPOLISH Package

- Heavy duty lathe head
- Proprietary SafeCHUCK tool mounting system
- Mounting for both punches and dies
- Solid maple work surface and sturdy steel bench
- Quick change tools for punches and die fixtures
