Chemical Resistant 1/4 Turn Washer Fittings

Integrated Packaging Solutions chemical resistant, QWF-90 parts are made of a high quality, proprietary polymer and will maintain their shape and strength in the typical aluminum can manufacturing washer bath. QWF-90 parts will also handle washer processes that are not fully under control. In over 10,000 hours of testing the QWF-90 vastly outperformed the closest competitor and demonstrated superior longevity.

Benefits of QWF-90 Parts:

- Works with almost any make, model of washer
- Longevity means no no down-time between maintenances
- Easy installation and nozzle change
