*UserLOG shown with X2 Cross Hatch Machine (sold separately)

UserLOG™

System Description:

- Replaces existing Start push button

- User Access Control (UAC) solution for machines lacking this feature

- Uses badge system, records machine usage, user identity and reason for use

- Exports logged information to an Excel file for review & analysis

- Identifies potential issues such as overuse or misuse of machines

- Offers additional layer of security and visibility in machine management

Compatible with IPS Machines:

- X2 Cross Hatch Machine
- ToolPOLISH - Polishing Lathe System
- ToolPOLISH CE - CE Certified Punch & Die Polisher
- *Compatible with non-IPS machines upon request
